

# Historical Student Data User Guide

This guide provides instructions on viewing historical MCA and MTAS student data in PearsonAccess Next.

Note: The individual student information available in the secure PearsonAccess Next system is private student data. Ensure student data privacy is maintained when accessing, printing, or sharing information from the system.

## Overview

Access to Historical Student Data provides users two ways to view previous assessment history for an individual student based on the student's status:

- 1) Currently enrolled in the user's district.
- 2) Previously tested in the user's district.

Both paths include the following data:

- Test administration and year
- Where the student tested
- Grade
- Subject
- Scale score
- Achievement level

Additional test and performance details are available once an individual assessment record is selected.

## Overview (continued)
