^ Posting ISRs separated by student allows districts to more easily load PDFs into student information systems for distribution to families (see the file naming conventions in the table below). Ensure your district has software required to open zipped files formatted as a tar.gz file.

Criteria	File Naming Convention
Local Use Data* value indicated in PearsonAccess Next	MCA_<CCYY>_<DDDD>_<TT>_<SSS>_GR<99>_<SubjectAbbrev>_Marss_<MARSSNumber>_Local Use_<LocalUseData>.pdf
Local Use Data value NOT indicated in PearsonAccess Next	MCA_<CCYY>_<DDDD>_<TT>_<SSS>_GR<99>_<SubjectAbbrev>_Marss_<MARSSNumber>.pdf

* Note: The Local Use Data field is truncated to remove leading/trailing blanks.

Benchmark reports for 2019, 2021, and 2022 are comparable; 2020 Benchmark Reports are not available due to COVID-19. For more information, refer to the benchmark report resources available on the [Additional Reporting Resources page](#) (PearsonAccess Next > Reporting Resources > Additional Reporting Resources).

Administration Reports: The Secure Materials Status Report and Testing Time Report are spreadsheets that provide test administration information in Published Reports for the most recent test administration and are available to DACs only.

- The Secure Materials Status Report lists secure test materials for MCA and MTAS that have not been returned to or scanned by Pearson. For more information, refer to [Accessing the Secure Materials Status Report](#) (PearsonAccess Next > Resources & Training > User Guides).
- The Testing Time Report is available at the district-level and provides cumulative testing time information by student. The time (in seconds) indicates the total time a student spent on both scorable and non-scorable (e.g., student directions, section end pages, start of section, etc.) items. This report is intended to provide districts information to plan for future administrations by confirming the amount of time students tested, or to identify trends by grade or subject across the district. The data provided in this report is not meant to be used to make decisions about individual students.
