

On-Demand Reports and Export User Guide

This guide provides instructions on viewing, printing, downloading, and exporting On-Demand Reports in PearsonAccess Next.

Note: The individual student information available in the secure PearsonAccess Next system is private student data. Ensure student data privacy is maintained when accessing, printing, or sharing information from the system.

Overview

On-Demand Reports allow users to access preliminary online test results for MCA and MTAS and are available within 60 minutes of test or data entry submission.

Access by User Role

Users with the District Assessment Coordinator (DAC) or Assessment Administrator (AA) role in PearsonAccess Next have access to on-demand reports. If educators (users with the Test Monitor/Data Entry or MTAS Entry user role) need access to on-demand reports, the DAC or AA must first assign reporting groups to the Test Monitor/Data Entry or MTAS Entry user before they can access the results; see table below.

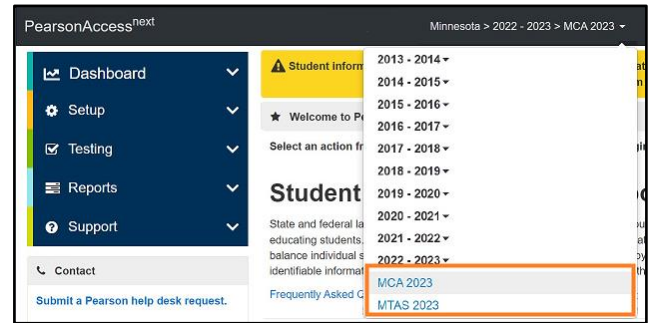

Report Access by User Role

User Role	On-Demand Reports	On-Demand Export
District Assessment Coordinator (DAC)	Yes	Yes
Assessment Administrator (AA)	Yes	Yes
Test Monitor/Data Entry	Yes, if assigned to a Reporting Group	No
MTAS Entry	Yes, if assigned to a Reporting Group	No

Instructions for creating reporting groups in PearsonAccess Next are available in the [Reporting Groups User Guide](#) (PearsonAccess Next > Reporting Resources > Additional Reporting Resources).

Verify Test Administration

Once you have signed in to PearsonAccess Next, verify that the applicable test administration (for example, **MCA 2023** or **MTAS 2023**) is selected. To change the test administration, select the current test administration in the black bar at the top of the page, select the 2022-2023 dropdown, as needed, and then select the test administration.

View Test Results

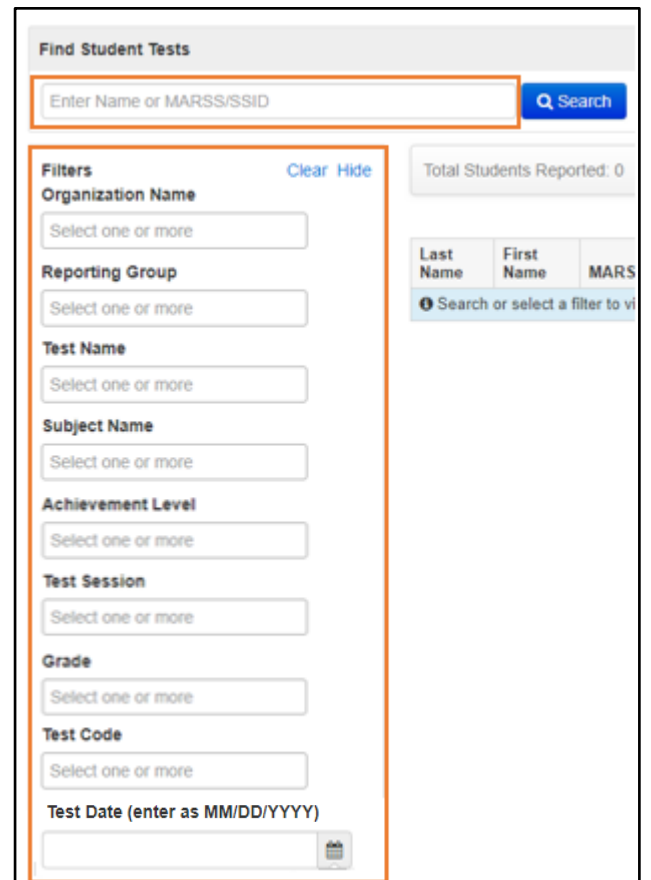

- From the Home page, under **Reports**, select **On-Demand Reports**.

- Search for a student by name or MARSS/SSID or use the filters to search by Organization Name, Reporting Group, Test Name, Subject Name, Achievement Level, Test Session (MCA only), Grade, Test Code, and/or Test Date (enter as DD-MM-YYYY).

New for 2022-23: Select the calendar icon to open a calendar view to ensure the correct data format is used.

Note: Multiple filters can be used at the same time as long as the selected subject and/or grades do not conflict (for example, Test Name "Grade 03 Mathematics MCA" and Subject Name "Reading" or Grade "07" conflict and wmtasill not display results).

- Students are listed by last name, first name, and then MARSS/SSID.

- Use the Manage Columns dropdown menu on the right to add or remove fields from the student data grid. The column options will vary depending on whether you are viewing MCA or MTAS (for example, Lexile/Quantile will only display for MCA).

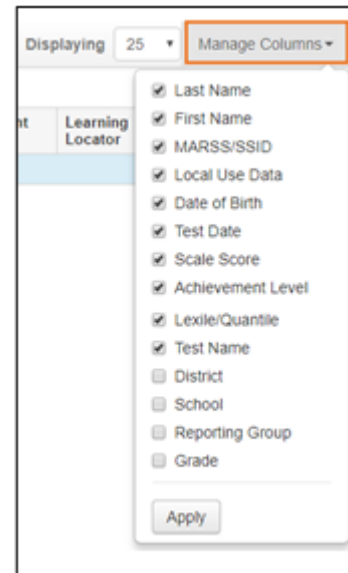

Note for 2022-23: Learning Locator is no longer provided on reports.

The fields selected will display on the Student List Report (PDF) and Student List Report Excel when selecting Print.

Note: When there are 500 results or less, all columns can be sorted in ascending or descending order.

Tip: If downloading and printing the Student List Report (PDF), it is recommended to select nine or fewer columns. This is so the data does not appear truncated in the downloaded report.

- Select the **Information** icon to the right of the student's MARSS/SSID to view or print an individual student's test results as a Student Detail Report (SDR) in PDF format.

Last Name	First Name	MARSS/SSID
STUDENT	ACE	9373928272892

CONTROL BAILEY (5555000002335)

Scale Score: 663

Parent and Student Resources

Quantile®: 495Q

The Quantile® Framework is a system that helps match the student with materials appropriate for their ability in mathematical skills and concepts. Mathematics materials within the predicted Quantile range can challenge students without overwhelming them. Please visit the [Quantile Framework website](https://quantiles.com) for more information about the Quantile® Framework (https://quantiles.com).

Information for students and families is available on the [MDE Statewide Testing Students and Families website](#) (education.mde.state.md.us/StudentsandFamilies).

Download Preliminary Test Results

Preliminary test results report downloads process in the background allowing users to continue to use On-Demand Reports or complete other tasks in PearsonAccess Next while the report is processing. Users can sign out of PearsonAccess Next and return later to download the report. **New for 2022–23:** Up to 15 previously ran reports can be accessed (Note: This is an increase from 10 in 2021–22).

1. To download test results for all students displayed, select **Print**. There are three available options: Student Detail Reports (PDF), Student List Report (PDF), and Student List Report Excel.

Tip: Use the filter functions on the left to add or remove students displayed before selecting Print and a report option.

2. The selected report will display as processing under the Requested Reports dropdown.

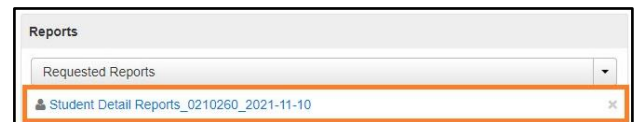

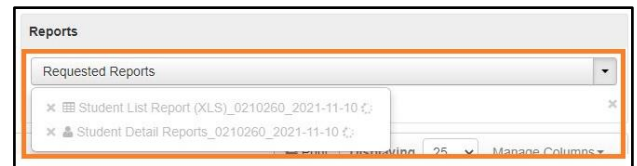

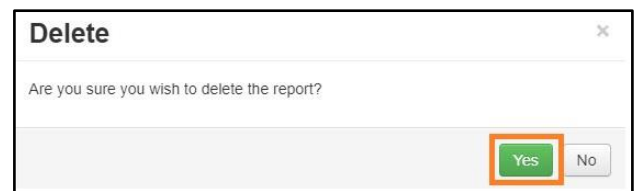

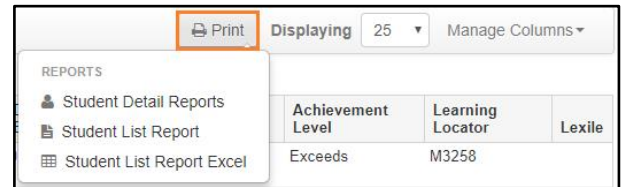

To stop the download, select the “X” icon to the right of the report. A confirmation pop-up will appear asking if you want to delete the report. Select “Yes” to delete the report, or “No” to not delete the report.

Note: The most recently selected report will display under Requested Reports. If downloading multiple reports in the same session, select the **Requested Reports** dropdown to view these reports.

Note: The file name includes the report name, organization code, and date the report was run (for example, Student Detail Reports_5555-09-101_2023-03-25). If multiple reports are downloaded on the same date for the same organization, the number 1-14 will appear in parenthesis after the file name (for example, Student Detail Reports_5555-09-101_2023-03-25 (1)).

3. Once the download is complete, the most recent report will display as a hyperlink. Select the hyperlink to download the report to your computer. Print or save the report using your browser’s print function. Select the “X” icon to delete the report.
4. To download a previous report(s), under Requested Reports, select the report hyperlink to download the report to your computer. Select the “X” icon to the left of the report name to delete the report.

Note: Only the last 15 reports run by a user are available. If more than 15 of the same reports are downloaded on the same date, the current report will be replaced (for example, Student Detail Reports_5555-09-101_2023-03-25 (14)). If running more than 15 reports in a session, download and delete previous reports before running more reports.

Student Detail Reports (PDF)

- The Student Detail Reports downloads a single PDF file containing individual one-page preliminary reports for each selected student.
- The Student Detail Reports include strand/substrand scale scores and strand performance levels for MCA and extended standards performance for MTAS.
- The download is limited to 1,500 individual reports in the combined file. If the file contains more than 1,500 records, you will receive the error message to the right.

Error

Your selection contains more than 1,500 records. Please choose a filter in order to print.

Student List Report (PDF)

- The Student List Report downloads a report as a single PDF file with the selected students.
- The Student List Report (PDF) can include any column field options under Manage Columns, including scale scores and achievement level. Refer to Step 3 under the *View Test Results* section above for information about managing columns.
- The download is limited to 60,000 student tests listed in the Student List Report (PDF). If the file contains more than 60,000 student tests, you will receive the error message to the right.

Error

Your selection contains more than 60,000 records. Please choose a filter in order to print.

Student List Report Excel

- The Student List Report Excel downloads as a list in Excel format with the selected students.
- The Student List Report in Excel format can include any column field options under Manage Columns, including scale scores and achievement level. Refer to Step 3 under the *View Test Results* section above for information about managing columns.
- The download is limited to 100,000 student tests listed in the Student List Report in Excel format. If the file contains more than 100,000 student tests, you will receive the error message to the right.

Error

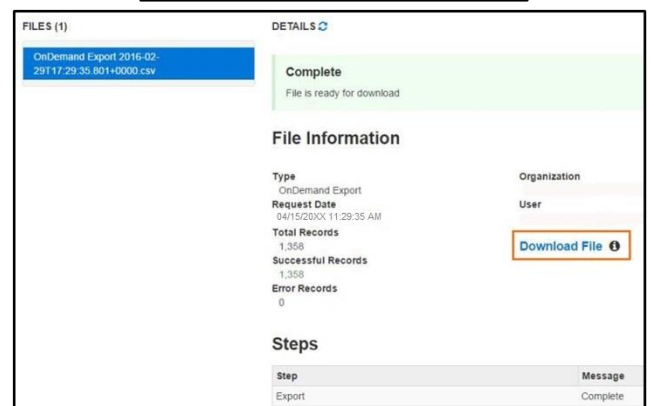

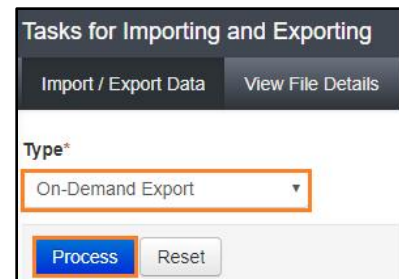

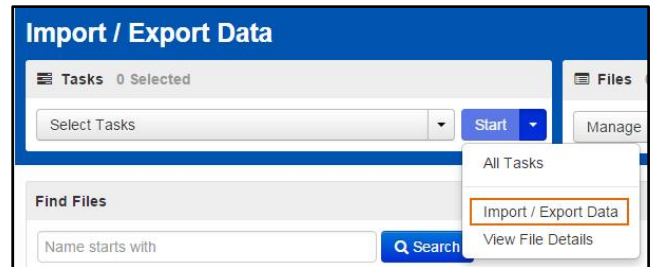

Your selection contains more than 100,000 records. Please choose a filter in order to print.

On-Demand Export

The On-Demand Export includes all student results in a CSV format and strand/substrand scale scores and performance levels for MCA and extended standards performance for MTAS.

Note: The On-Demand Export includes results for online, data entry, and science script tests.

1. From the Home page, under **Setup**, select **Import / Export Data**.
2. Select the dropdown menu to the right of the **Start** button and select **Import / Export Data**.
3. From the Type dropdown menu, select **On-Demand Export** and select **Process**.
4. After you select the Process button, you will be directed to the View File Details page where you can see file information updates. You will receive a Status Notification email when the file has completed processing.
5. When the file is complete, select **Download File**. The file will download to your computer as a .csv file.

MCA On-Demand Export File Layout

CSV File Column	Field Name	CSV Column Heading	Field Notes / Sample Data
A	Admin	ADMINISTRATION	Example: mnmca23
B	District Code	DIST_CODE	The district code is 9 digits comprised of District Number (4 digits), District Type (2 digits), and School Number (3 digits, all zeroes), in DDDD-TT-SSS format Example: 5555-01-000
C	District Name	DISTRICT	Example: District Area Schools
D	School Code	SCH_CODE	The school code is 9 digits comprised of District Number (4 digits), District Type (2 digits), and School Number (3 digits), in DDDD-TT-SSS format Example: 5555-01-201
E	School Name	SCHOOL	Example: Wilson Elementary
F	Test Name	TEST_NAME	Example: Grade 03 Mathematics MCA, Grade 03 Reading MCA Data Entry
G	Test Date	TEST_DATE	Format as: YYYYMMDD Example: 20230411
H	Subject	SUBJECT	Example: Reading
I	Grade	GRADE	Includes leading zero on single digit grades Example: 03
J	MARSS ID	MARSS_SSID_NUMBER	Example: 1234567890123 To format the number, right-click on the MARSS column and select "Format Cells." Under category, select "Custom." In the "Type" text box enter thirteen zeros (for example, 0000000000000). Select "OK."
K	Local Use ID	LOCAL_USE_ID	This field is optional and may be blank if the district does not submit local use numbers in MARSS Example: 12345, abcde, <blank>
L	Last Name	LAST_NAME	Example: Student
M	First Name	FIRST_NAME	Example: Susan
N	Date of Birth	DATE_OF_BIRTH	Format as: YYYYMMDD Example: 20140101
O	Scale Score	SCALE_SCORE	Will display the score; if a test code or other score code applies, it will be displayed in this field Example: 0, 350, INV-S, INV-O, INV-D, REF-S, REF-P, ME, NA, NC
P	Achievement Level	ACHIEVEMENT_LEVEL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Example: Does Not Meet, Partially Meets, Meets, Exceeds
Q	Filler	FILLER	Note for 2022–23: Learning Locator is no longer provided on reports. The column will no longer contain data. Example: blank

CSV File Column	Field Name	CSV Column Heading	Field Notes / Sample Data
R	Lexile/ Quantile	LEXILE_QUANTILE	Will display Lexile for reading tests, Quantile for mathematics tests, and be blank for science tests Example: L1234, Q1234
S	Reporting Strand 1 Scale Score	RS1	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Example: 9
T	Reporting Strand 1 Performance Level	RS1_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Example: Above expectations
U	Reporting Strand 2 Scale Score	RS2	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Example: 9
V	Reporting Strand 2 Performance Level	RS2_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Example: Above expectations
W	Reporting Strand 3 Scale Score	RS3	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Example: 9
X	Reporting Strand 3 Performance Level	RS3_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Example: Above expectations
Y	Reporting Strand 4 Scale Score	RS4	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Example: 9
Z	Reporting Strand 4 Performance Level	RS4_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Example: Above expectations
AA	Science Strand 5 Scale Score	SC5	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Only applies to HS Science Example: 9

CSV File Column	Field Name	CSV Column Heading	Field Notes / Sample Data
AB	Science Reporting Strand 5 Performance Level	SC5_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Only applies to High School Science Example: Above expectations
AC	Science Strand 6 Scale Score	SC6	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Only applies to High School Science Example: 9
AD	Science Reporting Strand 6 Performance Level	SC6_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Only applies to High School Science Example: Above expectations
AE	Science Strand 7 Scale Score	SC7	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Only applies to High School Science Example: 9
AF	Science Reporting Strand 7 Performance Level	SC7_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Only applies to High School Science Example: Above expectations
AG	Science Strand 8 Scale Score	SC8	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Only applies to High School Science Example: 9
AH	Science Reporting Strand 8 Performance Level	SC8_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Only applies to High School Science Example: Above expectations
AI	Science Strand 9 Scale Score	SC9	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand scale scores are reported from 1 to 9 Only applies to High School Science Example: 9
AJ	Science Reporting Strand 9 Performance Level	SC9_PL	Will be left blank when a test code is applied or the test has not been attempted (NA) or completed (NC) Strand performance levels are reported below expectations, at or near expectations, or above expectations Only applies to High School Science Example: Above expectations

MTAS On-Demand Export File Layout

CSV File Column	Field Name	CSV Column Heading	Field Notes / Sample Data
