How to Make a Snowman

- ¹ Winter is here, and snow covers the ground. What can you do? Make a snowman!
- ² First, get bundled up. Put on your mittens and run outside. Grab some snow and shape it into a ball.
- ³ Next, roll the snowball in the snow. The snow from the ground will stick to your snowball. Roll it until the snowball is very big and heavy. This large snowball is the base of the snowman. The body and head will go on top of it.
- ⁴ Make two more snowballs. Roll one to make a medium-sized snowball for the snowman’s body. Put it on top of the base. Roll the other ball to make another smaller snowball for the head. Stack it on top of the other two balls. Jab a long stick on each side of the medium-sized ball for arms.
- ⁵ Next, give your snowman a face. For the eyes, press two stones or buttons into the small ball on top. Push a carrot in for a nose. Sometimes animals eat the carrot, so have extra carrots in your fridge just in case. Press small stones in a half circle for a smile. Now, top off your work! Give the snowman a funny snowman hat.
- ⁶ Show your friends how to make a snowman. Together, you can make a snow family!
