Symbols on the Test

You will see the following symbols in your test book:

This symbol means you can continue answering questions on the next page.

This symbol means you have finished a segment. You must wait until you are told to go to the next segment.

When you finish a segment of the test, raise your hand to receive a sticker from the Test Monitor. Place this sticker on the symbols to seal the segment.

Mathematics Test General Information

Put sticker
here

- Your test will contain different segments. Segment pages look like this:

Segment 1

You will be told when to begin this segment.

You **MAY NOT** use a calculator for this segment.

Segment 2

You will be told when to begin this segment.

You **MAY** use a calculator for this segment.

- You are allowed to use a calculator for certain segments of the test. These symbols tell you whether a calculator is allowed.

Allowed

Not Allowed

- You can write in your test book or use scratch paper.
- You must answer each question in the test book.
- Your mathematics test includes multiple-choice and fill-in-the-blank questions.

Go on to the next page.

For multiple-choice questions, circle the answer in your test book. The sample below shows you how to do this.

Sample Question Answered in Test Book:

Add.

$$1 + 1$$

A. 1

B. 2

C. 3

D. 4

Go on to the next page.

Practice

Practice answering this multiple-choice question by circling option B.

1. Which model shows 6?

Go on to the next page.

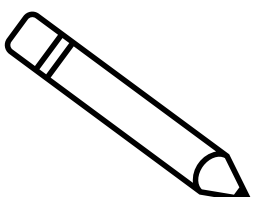

For fill-in-the-blank questions, you will need to write the answer in the space provided. You can also use this space to solve the question. The sample below shows you how to do this.

Note: Every fill-in-the-blank question includes instructions about which numbers and symbols can be used in your answers. It is important to follow these instructions when writing your answers.

Sample Question Answered in Test Book:

Please write your answer in the space below the question. You may use the digits: 0–9 and the symbols: slash for a fraction bar (/) and a decimal (.). If your answer is a mixed number, you must change it to an improper fraction or a decimal.

What is $15,000 + 1$?

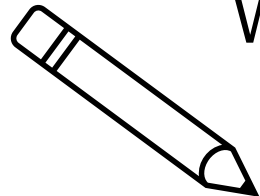

$$\begin{array}{r} 15000 \\ + \quad 1 \\ \hline 15001 \end{array}$$

Go on to the next page.

For some fill-in-the-blank questions, you will need to write answers with decimals. The sample below shows you how to do this.

Sample Question Answered in Test Book:

Please write your answer in the space below the question. You may use the digits: 0–9 and the symbols: slash for a fraction bar (/) and a decimal (.). If your answer is a mixed number, you must change it to an improper fraction or a decimal.

What is $\frac{1}{4}$ written as a decimal?

0.25

Go on to the next page.

Practice

Practice answering this question in the space provided by writing 0.3.

Please write your answer in the space below the question. You may use the digits: 0–9 and the symbols: slash for a fraction bar (/) and a decimal (.). If your answer is a mixed number, you must change it to an improper fraction or a decimal.

- 2.** What is the difference between 0.6 and 0.3?

Go on to the next page.

For some fill-in-the-blank questions, the answer may be a mixed number. It is important to change mixed numbers into improper fractions or decimals because the space bar character is not an accepted symbol. If an answer is given as a mixed number, it will be marked as incorrect. The sample below shows you how to do this.

Sample Question Answered in Test Book:

Please write your answer in the space below the question. You may use the digits: 0–9 and the symbols: slash for a fraction bar (/) and a decimal (.). If your answer is a mixed number, you must change it to an improper fraction or a decimal.

What is the sum of $3\frac{1}{2}$ and 4.25?

$$3\frac{1}{2} + 4.25$$

$$3\frac{1}{2} + 4\frac{1}{4}$$

$$7/2 + 17/4$$

$$14/4 + 17/4 = 3\frac{1}{4}$$

Go on to the next page.

Practice

Put sticker
here

Practice answering this question in the space provided by writing the sum of the mixed numbers in the form of the improper fraction $87/8$.

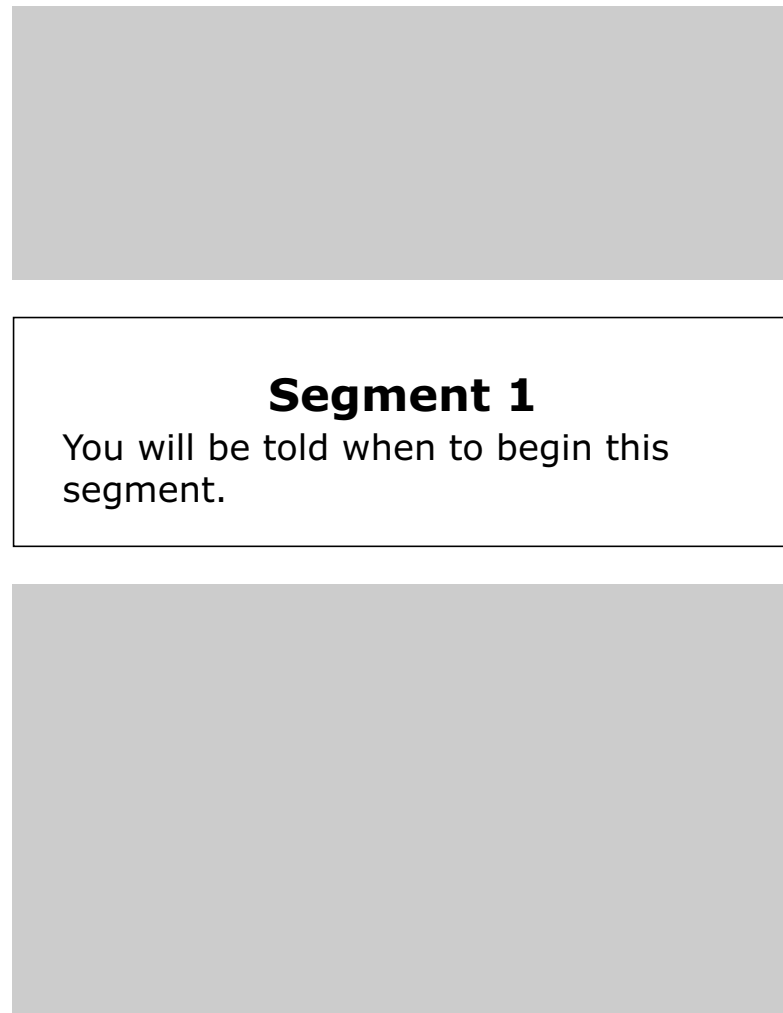

Please write your answer in the space below the question. You may use the digits: 0–9 and the symbols: slash for a fraction bar (/) and a decimal (.). If your answer is a mixed number, you must change it to an improper fraction or a decimal.

3. Add $6\frac{1}{2}$ and $4\frac{3}{8}$.

Reading Test General Information

- Your test will contain different segments. Segment pages look like this:

- In each segment, you will read a passage or passages before answering questions. There are different types of passages, such as poems, stories, and articles.
- You can write in your test book or use scratch paper.
- You must answer each question in the test book.
- Your reading test includes multiple-choice questions only.

Go on to the next page.

Instructions are included at the top of each passage. Read the passage. Then answer each multiple-choice question by circling the answer in your test book. The sample shows you how to do this.

Read this article about bats. Then answer the questions. Some questions may ask you about certain paragraphs. The paragraphs are numbered on the left side.

Creatures of the Night

written for the
Minnesota Department of Education

- 1 What is that flying around in the dark? Is it a bird? Is it a mouse? Is it a flying mouse?
- 2 Popular myths make bats seem frightening. However, they are actually helpful creatures in danger of vanishing. Disease and human beings are threats to bats. Most bats live only ten to twenty years. For these reasons, bats face an uncertain future. Hopefully, people will take notice of these interesting and useful creatures before they disappear from the planet.

Go on to the next page.

Sample Question Answered in Test Book:

According to paragraph 2, how long do most bats live?

- A.** Five to nine years
- B.** Ten to twenty years
- C.** Thirty to forty years
- D.** Fifty to one hundred years

Go on to the next page.

Practice

Practice answering this multiple-choice question by circling option C.

Read this article about bats. Then answer the questions. Some questions may ask you about certain paragraphs. The paragraphs are numbered on the left side.

Creatures of the Night

SCIENCE ONLY

Grade 5

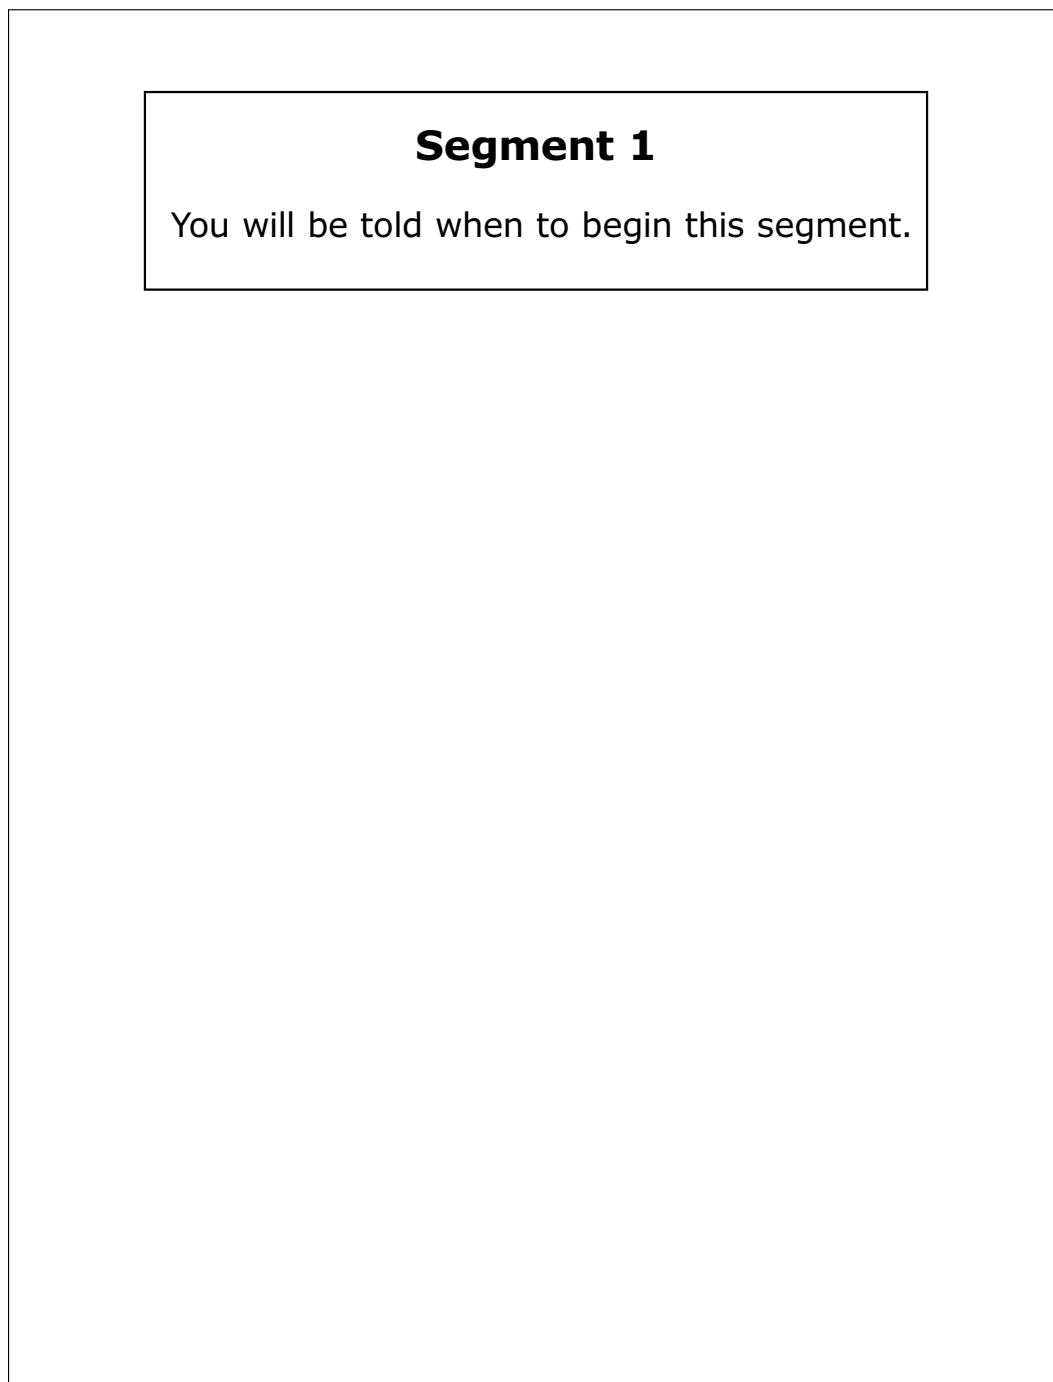

The following section is used only by 5th graders who will take the Science MCA.

Do not use this section unless you are taking the 5th grade Science MCA.

Go on to the next page.

Science Test General Information

- Your test will contain different segments. Segment pages look like this:

Put sticker
here

- You can write in your test book or use scratch paper.
- You must answer each question in the test book.
- You may use a handheld calculator for some questions.
- Your science test includes scenarios and different types of diagram, graphing, and multiple-choice questions.

Go on to the next page.

For some diagram questions, you will need to circle the answer you want to choose. The sample scenario and the sample questions on the next page show you how to do this.

Go on to the next page.

Sample Scenario and Questions Answered in Test Book:

Sample Scenario

Before this area was mined, the land
looked very different.

Before Mining

After Mining

Go on to the next page.

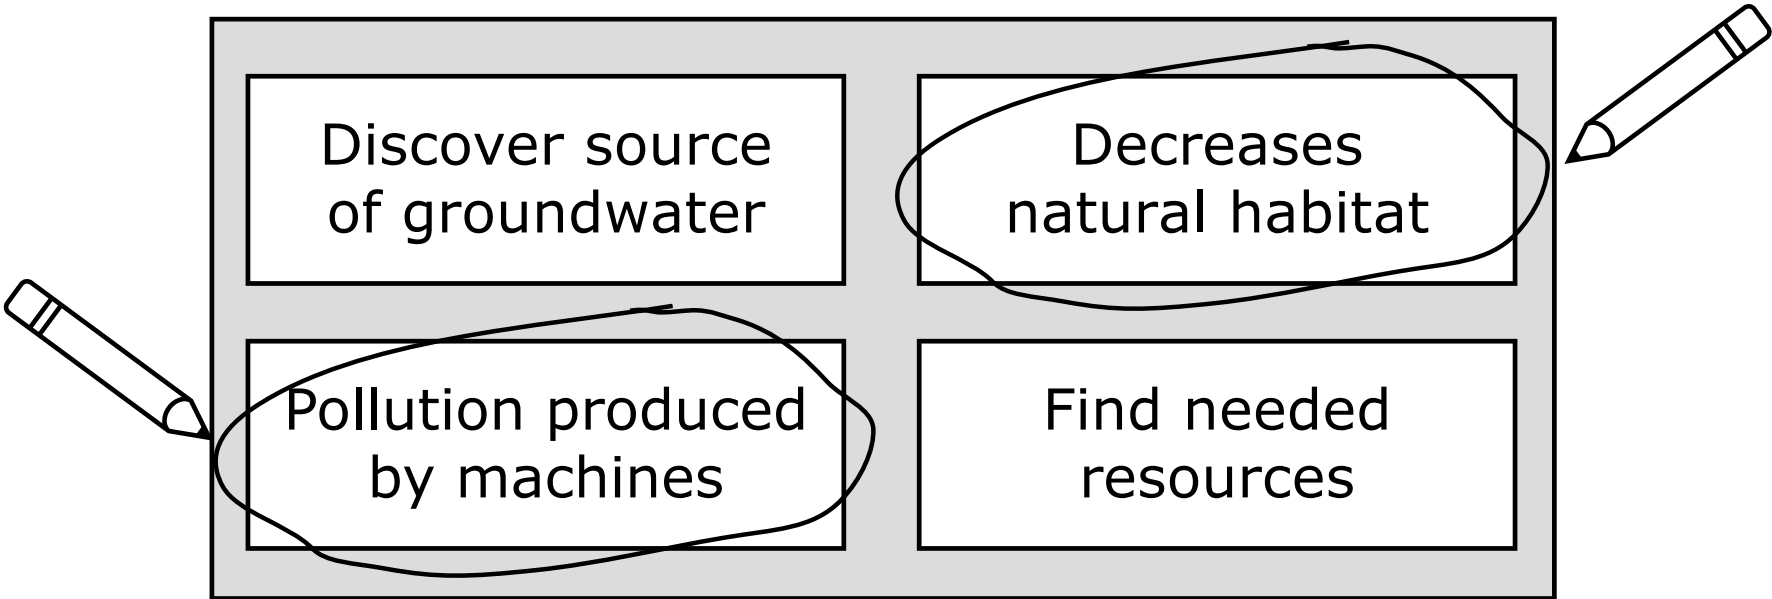

Sample Question

Mining in a forest area can have positive and negative effects. Identify 2 possible negative effects on the environment.

Circle the 2 effects you want to choose.

Possible Effects

Discover source of groundwater	Decreases natural habitat
Pollution produced by machines	Find needed resources

Go on to the next page.

Sample Question

Natural resources are often used to supply energy to peoples' homes. Identify resources that are a source of nonrenewable energy.

Circle each resource you want to choose.

Coal

Water

Oil

Wind

Solar

Go on to the next page.

Practice

Practice answering this diagram question by circling Cattails and Leech.

Scenario

A teacher brings her students to observe a small pond. They notice many kinds of animals, including fish, snails, mussels, leeches, and ducks.

Question

1. Circle two organisms on this diagram that do not have a shell.

Go on to the next page.

For some diagram questions, you will need to write the label letters (such as A, B, C) in the boxes. The sample shows you how to do this.

Sample Question Answered in Test Book:

What causes the phase change in each of the pictures?

Go on to the next page.

Each word is labeled A or B. Write the letter of the correct word in each empty box of the diagram. You may use each letter more than once.

A.

B.

Cooling

Heating

Phase Changes

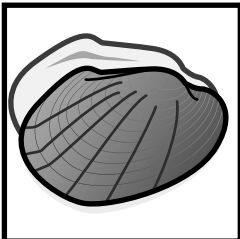

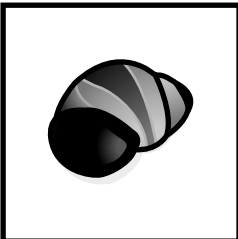

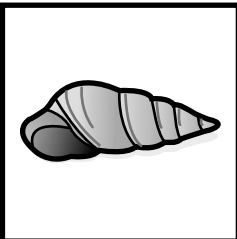

Go on to the next page.

Practice

Practice answering this diagram question by writing letter A under Group 1, letter B under Group 2, and letter C under Group 2.

2. The shells are sorted by shape. Sort the remaining 3 shells by shape.

Each remaining shell is labeled A, B, or C. Write the letter of each shell in the correct group. You may only use each letter 1 time.

Group 1	Group 2
	 

Shells

A.

B.

C.

Go on to the next page.

For some graphing questions, you will need to write a “+” above each bar where the top of the bar should be. The sample shows you how to do this.

Sample Question Answered in Test Book:

Make a graph of the air temperatures inside and outside of a cave at 7 a.m.

Air Temperature

	Inside	Outside
7 a.m.	5°C (41°F)	– 2°C (28°F)

Go on to the next page.

Write a “+” above each bar where the top of the bar should be.

Go on to the next page.

Practice

Practice answering this graphing question by writing a “+” above “Inside the cave” at 13°C and a “+” above “Outside the cave” at 18°C.

- 3. Make a graph of the air temperatures inside and outside of a cave at 6 p.m.

Air Temperature

	Inside	Outside
6 p.m.	13°C (55°F)	18°C (65°F)

Go on to the next page.

Write a “+” above each bar where the top of the bar should be.

Go on to the next page.

For multiple-choice questions, circle the answer in your test book. The sample below shows you how to do this.

Sample Question Answered in Test Book:

Which of the following is a renewable resource?

- A.** Wind
- B.** Coal
- C.** Natural Gas
- D.** Oil

Go on to the next page.

Practice

Practice answering this multiple-choice question by circling option C.

- 4.** What happens when water evaporates?
- A.** The water gets hotter.
 - B.** The water changes color.
 - C.** The water turns into a gas.
 - D.** The water turns into a solid.
