

Historical Student Data Quick Guide

This guide provides instructions on viewing historical student data in PearsonAccess Next.

Overview

Historical Student Data allows users to access previous assessment history for an individual student who is currently enrolled in the user’s district and/or has previously tested in the user’s district. The data available includes the test administration and year, where the student tested, subject, grade, scale score, and achievement level. Additional test and performance details are available once an individual assessment record is selected.

Where and when Historical Student Data is accessed in PearsonAccess Next depends on if the student is currently enrolled in your district or has previously tested in your district. Data is available in both locations for students who are currently enrolled and previously tested in your district.

*Results from the most recent test administration will be available in late summer.

User Roles

Users with the District Assessment Administrator (DAC) or Assessment Administrator (AA) role in PearsonAccess Next have access to historical student data. If teachers (i.e., users with the Test Monitor/Data Entry or MTAS Score Entry user role) need access to historical student data, the DAC or AA must first assign reporting groups to the Test Monitor/Data Entry or MTAS Score Entry users in order for the users to access historical student data; see table below.

Instructions for creating reporting groups in PearsonAccess Next are available in the [Reporting Groups User Guide](#) (PearsonAccess Next > Reporting Resources > Additional Reporting Resources).

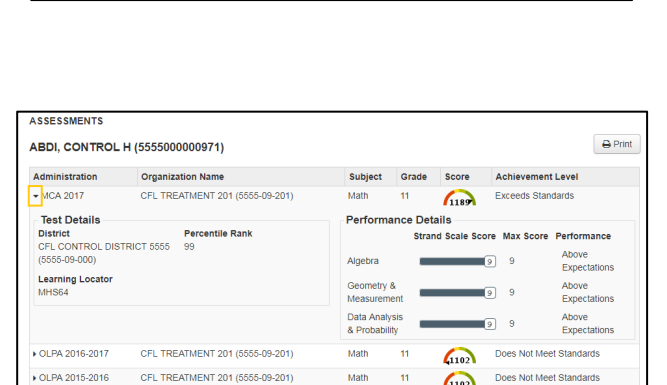

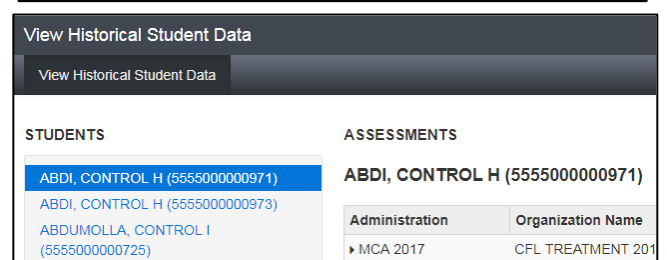

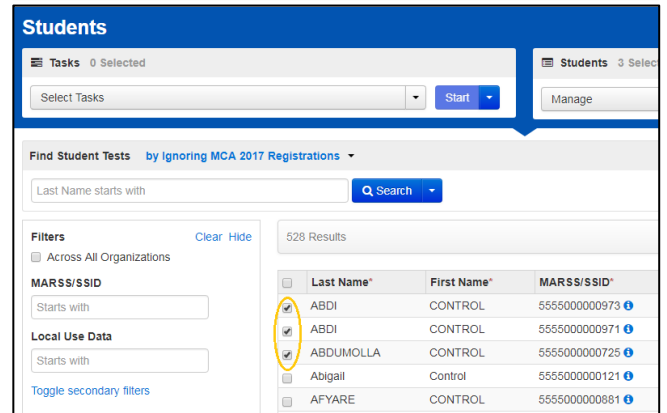

Report Access by User Role

User Role	Historical Student Date is available
District Assessment Coordinator (DAC)	Yes
Assessment Administrator (AA)	Yes
Test Monitor/Data Entry	Yes, if assigned to a Reporting Group
MTAS Score Entry	Yes, if assigned to a Reporting Group

View Historical Student Data – Currently Enrolled Students

Follow these steps to view historical student data for students currently enrolled in your district.

- From the Home page, under **Setup**, select **Students**.
 - Students are listed by last name, first name, and then MARSS/SSID.
 - Select the checkbox next to individual student(s).
 - Select the dropdown menu to the right of the **Start** button and select **View Historical Student Data**.
 - The student(s) selected are displayed on the panel on the left. If you selected multiple students, confirm that the student for whom you want to view historical student data is selected (highlighted in blue).
- NOTE:** All user roles have access to some information for students within their organization on the Students page. If a teacher selects a student(s) who is not in their assigned reporting group(s), they will receive an error message when attempting to view Historical Student Data.
- To see additional test details and performance details about a specific assessment, under the Administration column, select the arrow next to an administration (e.g., MCA 2017).
 - Tests are ordered by most recent administration then by test date in descending order.
