## Receiving Secure Test Materials

MCA and MTAS secure test materials will arrive at the district or school (depending on the option selected during Pretest Editing) in separate boxes addressed to the Assessment Coordinator.

- If the **ship-to-district** option was selected, the District Assessment Coordinator (DAC) is responsible for receiving test materials from Pearson and then delivering test materials to each School Assessment Coordinator.
- If the **ship-to-school** option was selected, each School Assessment Coordinator is responsible for receiving test materials from Pearson.

The labels on each box reference the location they are shipped to, and the boxes are sequentially numbered. MCA secure test materials have BLUE labels attached to the boxes. MTAS secure test materials have RED labels attached to the boxes.

The ship-to location (district or school) will receive a Coordinator Kit, pallet detail sheet, packing list, and security checklist. The Coordinator Kit contains Pearson and UPS return labels, *Testing Directions: Paper* (MCA only), and stickers to seal segments (MCA only).

- If ship-to-district is selected, these materials will be in the first box for each test, addressed to the district. The first box for each school will also contain the packing lists and security checklists.
- If ship-to-school is selected, the district will not receive any of these materials. For each school, the materials will be in the first box for each test.

Open boxes as soon as possible after receipt to allow sufficient time for check in. Districts receiving test materials for schools should distribute them to the School Assessment Coordinators as soon as possible to allow time for inventorying and timely replacement of damaged or missing items. Test materials must be kept secure at all times.

Upon receipt of test materials, follow the steps below to check in test materials while maintaining the security of the tests. Secure test materials must be tracked upon receipt until returned.

- Locate the *Pallet Detail Sheet* that shows the number of boxes shipped to the district/school.
  - If materials are shipped to the district, DACs can use the *Pallet Detail Sheet* to easily sort boxes by school and verify that all boxes have been received.
  - If boxes are missing, call the Pearson help desk at 888-817-8659.

The following detailed list contains the security numbers of all secure test materials included in this shipment. This list is provided to help you track the secure test materials.

**BEFORE THE ASSESSMENT**  
To track the secure test materials, write the name of the Test Monitor receiving the test materials and the date issued in the appropriate columns. If any test materials are not assigned, leave the columns blank.

**AFTER THE ASSESSMENT**  
Write in the date that the Test Monitor returns all secure test materials issued to them in the "Date Returned" column. If secure test materials are NOT returned, document the reason in the space provided. If you require more space for your documentation, additional pages may be attached. Immediately inform your District Assessment Coordinator if any secure test materials are not returned. Make a copy of this completed list for your records and send the original to your District Assessment Coordinator.

Return all secure test materials according to directions in the "Returning Secure Test Materials" document (PearsonAccess Next Resources & Training > User Guides).

For LP TB, MCA, RDG, GR 3, 18 PT, SEC

- The *Test Materials Assigned to Students Checklist* (available in Appendix A of the [Procedures Manual](#) (PearsonAccess Next > Resources & Training > Policies and Procedures)) can be used to assign materials to students.
  - Staff with the District Assessment Coordinator (DAC) and Assessment Administrator (AA) user roles in PearsonAccess Next can access electronic copies of each school's security checklists on PearsonAccess Next. Note that if test materials are shipped to the school, the district will not receive a paper copy of each school's checklist. These electronic versions can also be used to assign test materials to students. See the [Viewing Test Material Reports and Tracking Information](#) user guide (PearsonAccess Next > Resources & Training > User Guides) for information on accessing all shipment information in PearsonAccess Next.
  - Note: Each district determines how it will use the security checklists to track secure test materials.
- Organize and place secure test materials in a secure, locked location until they are distributed. Secure test materials cannot be distributed until testing, unless explicitly allowed in the *Procedures Manual* or as described below.
- For MCA:
    - The *Testing Directions* may be distributed to Test Monitors upon receipt to allow them sufficient time to prepare for test administration.
    - For braille administrations, braille test materials may be distributed to Test Monitors up to 5 business days prior to the scheduled test administration.
    - For signed interpretation of the mathematics or science script, the script may be provided to sign language interpreters up to 5 business days prior to the scheduled administration.
  - For MTAS, Test Administrators must have access to the secure test materials upon delivery to prepare for individual student needs (enlarge material, find manipulatives, etc.). MTAS materials must be kept secure by the Test Administrators as they prepare for testing. A sign language interpreter (who is not the Test Administrator) may have access to the materials up to 5 business days prior to the scheduled administration.
- Save the boxes in which the test materials arrived. Use these boxes to return test materials to Pearson.

## Ordering Additional Test Materials

If additional test materials are needed, an additional order must be placed by the DAC or AA in PearsonAccess Next. Additional test materials can be ordered until noon on the Wednesday before the end of the testing window so that test materials will arrive in time for test administration.
