

Longitudinal Reports and Export User Guide

This guide provides instructions on viewing, printing, downloading, and exporting Longitudinal Reports in PearsonAccess Next.

Note: The individual student information available in the secure PearsonAccess Next system is private student data. Ensure student data privacy is maintained when accessing, printing, or sharing information from the system.

Overview

Longitudinal Reports provide a graphical display of historical results at the student, school, district, and/or state level for review or comparison by administration (test and year), overall and average scale score, achievement level, strand performance detail, and/or student group.

Longitudinal reports are currently available for the following test administrations:

- MCA 2011–2019; 2021–24*
- MTAS 2011–2019; 2021–24*

*2020 summary results are not available in Longitudinal Reports due to COVID-19. The student-level results that are available for 2020 are included in the Longitudinal Export. A limited number of completed tests with valid scores for individual students are also available in Historical Student Data for 2020.

Access by User Role

Users with the District Assessment Coordinator (DAC) or Assessment Administrator (AA) role in PearsonAccess Next have access to longitudinal reports.

Report Access by User Role

User Role	Longitudinal Reports	Longitudinal Export
District Assessment Coordinator (DAC)	Yes	Yes
Assessment Administrator (AA)	Yes	Yes
Test Monitor/Data Entry	No	No
MTAS Entry	No	No

Access Longitudinal Reports

- From the Home page, under **Reports**, select **Longitudinal Reports**.

Throughout the form: All selected graphics just read text near them, not a description of the image

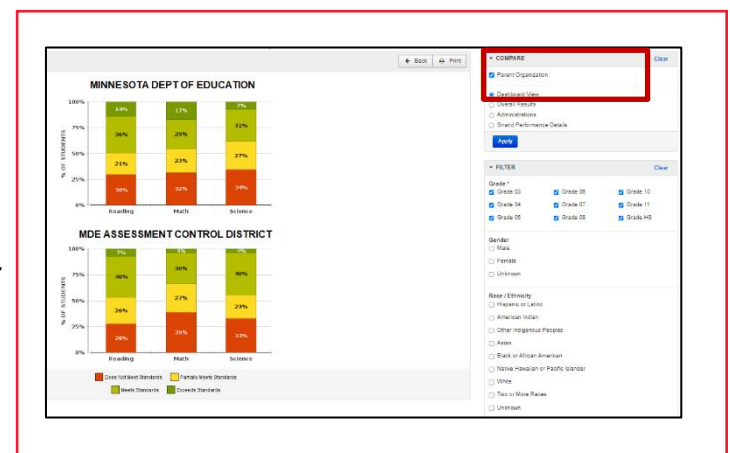

- The test administration page is the default view. Under **COMPARE**, select the parent organization and/or test administration. Then select **Apply**.

Data available depends on the organization assigned to the user or by the level of organization selected, whether district or school. The following sections outline some ways to view results in Longitudinal Results.

View Summary Results by Subject

- Under **COMPARE**, the **Parent Organization** and **Dashboard** are selected. When selected, results for both the organization and test administration are shown for comparison.

- The parent organization for a district is the state.
- The parent organizations for a school are the district and state.

Dashboard View provides a high-level summary chart by achievement level (Does Not Meet Standards, Partially Meets Standards, Meets Standards, and Exceeds Standards) by test administration at the subject level.

- The graph displays student performance by percentage.
- Hover over the percentages on the bar graph to see student counts.

- In the Dashboard View under **FILTER**, the default view for **Grade** is all grades. To limit grades shown in data in graph, deselect one or more grades as needed then select **Apply**.

Note: Grade is a required field. At least one grade must be selected.

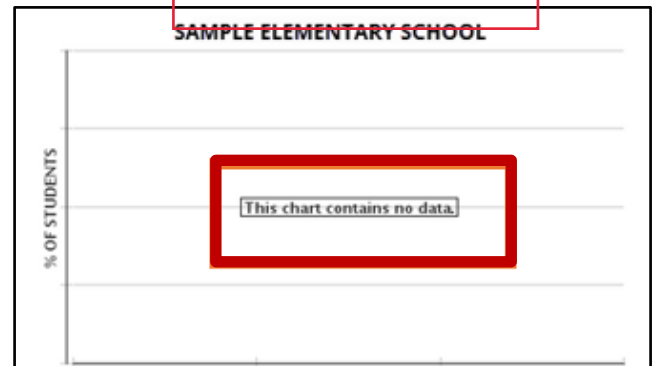

FILTER Clear

Grade *

<input checked="" type="checkbox"/> Grade 03	<input checked="" type="checkbox"/> Grade 06	<input checked="" type="checkbox"/> Grade 10
<input checked="" type="checkbox"/> Grade 04	<input checked="" type="checkbox"/> Grade 07	<input checked="" type="checkbox"/> Grade 11
<input checked="" type="checkbox"/> Grade 05	<input checked="" type="checkbox"/> Grade 08	<input checked="" type="checkbox"/> Grade HS

Apply

Note: If a chart for a selected organization has no data, verify the selected grades are applicable for that organization. For example, if an elementary school and grade 11 are selected, then there would not be grade 11 data available. Select the applicable grade(s) for the organization(s) selected.

Options to Compare Results in Longitudinal Reports

1. Parent Organization and only one other radio button can be selected at a time (Dashboard View, Overall Results, Administrations, or Strand Performance Details).

A screenshot of a web interface titled 'COMPARE' with a 'Clear' button in the top right. Below the title are five radio button options: 'Parent Organization' (which is selected and highlighted with a red box), 'Dashboard View', 'Overall Results', 'Administrations', and 'Strand Performance Details'. At the bottom of the menu is a blue 'Apply' button.

Note: If a chart for a selected organization has no data, verify the selected test is applicable for that organization. For example, if a high school and grade 3 reading are selected, then there would not be grade 3 reading data available under Overall Results. The school column within the graph would be blank and no student results are found. Select the applicable test for the organization(s) selected.

- a) If Parent Organization and Dashboard View are selected in the COMPARE box, subject level results are displayed in comparison to the parent organization(s) results.

- b) If Parent Organization and Overall Results are selected in the COMPARE box, results for the selected test (for example, Grade 3 Reading MCA) are displayed in comparison to the parent organization(s) results.

- c) If Parent Organization and Administrations are selected in the COMPARE box, results for the selected administration and any previous administrations will appear for the selected organization and any parent organization(s).

- d) If Parent Organization and Strand Performance Details (MCA 2016 and forward) are selected in the COMPARE box, results will appear by strand for the organization and any parent organizations.

2. To remove the comparison to the parent organization(s) and compare other data, under COMPARE, deselect the checkbox to the left of Parent Organization and select **Apply**.

COMPARE

☒ Overall Results

☐ Administrations

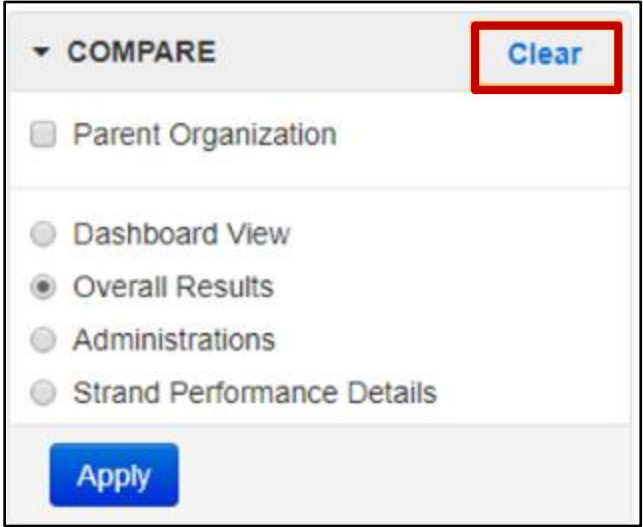

☐ Strand Performance Details

Apply

3. Select the **Back** button to go back to previously viewed screens.

4. Select **Clear** to remove current selections in the COMPARE box and start selection process again if different comparison results are desired.

The screenshot shows a user interface for a comparison tool. At the top, there is a header bar with a dropdown arrow and the word "COMPARE". To the right of this header is a blue button labeled "Clear", which is highlighted with a red rectangular border. Below the header, there is a list of options, each preceded by a radio button. The first option is "Parent Organization" and is preceded by a square checkbox. The other four options are "Dashboard View", "Overall Results", "Administrations", and "Strand Performance Details", each preceded by a circular radio button. The "Overall Results" option is currently selected, indicated by a filled radio button. At the bottom of the list is a blue button labeled "Apply".

View Overall Results For a Specific Test by Achievement Level

1. Change the selections under COMPARE to **Overall Results** and **Parent Organization** and select **Apply** to display a summary of results for a specific test (grade and subject) for your school or district and state.

- Overall Results is a summary chart by achievement level (Does Not Meet Standards, Partially Meets Standards, Meets Standards and Exceeds Standards) for a specific test (for example, Grade 3 Reading MCA).
- Grade is no longer available under FILTER as results included are for a specific test (grade and subject).
- The chart displays student performance by percentage. Hover over the percentages to see student counts.

The screenshot shows the 'COMPARE' menu with the following options: 'Parent Organization' (checked), 'Dashboard View', 'Overall Results' (selected), 'Administrations', and 'Strand Performance Details'. The 'Apply' button is at the bottom.

2. To change the test data displayed, select the dropdown next to the current test in the upper left and then select a different test.

The screenshot shows the 'Longitudinal Reports' section with a dropdown menu for 'MCA 20XX' and 'MDE ASSESSMENT CONTROL DISTRICT (5555-09-000)'. The 'Grade 3 Reading MCA' is selected in the dropdown.

3. Your view, whether at the district or school level, will depend on your organization (based either on your user role organization or the school selected).

District level view: At the district-level view, a list of schools in the district will display below the performance level chart. Results for each school include the Average Scale Score and the number of students and percentage at each performance level (Does Not Meet Standards, Partially Meets Standards, Meets Standards, and Exceeds Standards).

- Select a school name to view school level performance data and comparisons.

Organization Name	Avg Scale Score	Does Not Meet Standards	Partially Meets Standards	Meets Standards
SAMPLE ELEMENTARY SCHOOL 1 (9999-99-999)	338.4	83	10%	29
SAMPLE ELEMENTARY SCHOOL 2 (9999-99-999)	334.1	19	8%	6
SAMPLE ELEMENTARY SCHOOL 3 (9999-99-999)	359.8	13	12%	18
SAMPLE MIDDLE SCHOOL (9999-99-998)	345.4	29	11%	25
SAMPLE MIDDLE SCHOOL 1 (9999-99-998)	354.9	17	23%	11
SAMPLE HIGH SCHOOL (9999-99-997)	336.1	28	58%	8

School level view: At the school-level view, a list of the students in the school will appear below the performance level chart.

- Select the information icon to the right of the student's name to view available historical test results for that student.
- **Historical Student Data** opens in a pop-up window; for more information view the [Historical Student Data User Guide](#) (PearsonAccess Next > Reporting Resources > Additional Reporting Resources).
 - Select the arrow to the left of the test administration name (for example, MCA 2024) to view test details for a specific test.
 - Select **Print** to download the student's complete test history. Print the results using your browser's print function.
 - Select **Close** when finished.

View Results by Strand Performance Details

- Starting with the MCA 2016 administration, Strand Performance Details are available as a comparison selection.
 - Under COMPARE, deselect the radio button next to Parent Organization and select the radio button to the left of Strand Performance Details. Then select **Apply**.

Strand Performance Details include content area strand and/or substrand results and are categorized as: Below Expectations, At or Near Expectations, or Above Expectations.

- If viewing at the school level, strand performance details for individual students will display.
- Select the information icon to the right of the student's name to view available historical test results for that student.
- Historical Student Data** opens in a pop-up window; for more information view the [Historical Student Data User Guide](#) (PearsonAccess Next > Reporting Resources> Additional Reporting Resources).
 - Select the arrow to the left of the test administration name (for example, MCA 2024) to view test details for a specific test.
 - Select **Print** to download the student's complete test history. Print the results using your browser's print function.
 - Select **Close** when finished.

The screenshot shows a 'COMPARE' menu with a 'Clear' button. A red box highlights the selection area. The 'Parent Organization' radio button is checked. Below it are four other options: 'Dashboard View', 'Overall Results', 'Administrations', and 'Strand Performance Details', which is selected with a radio button. At the bottom, a blue 'Apply' button is highlighted with a red box.

Students	MARSS/SSID
BAND, KATIE	5555033333331
CODYONEILL, CONTROL	5555000003304
Control, Rorgana	5555000000040

The screenshot shows the 'Control, Rorgana (5555000000040)' window. It includes a 'Print' button in the top right corner. The window displays test details for 'MCA 200X' and 'MDE ASSESSMENT ELEMENTARY (5555-09-101)'. It shows the subject as 'Reading' and the grade as '03'. The achievement level is 'Exceeds Standards'. The 'Performance Details' section shows scores for 'Literature' and 'Informational Text', both with a score of 9 and a status of 'Above Expectations'.

Filter Results for Reports

In addition to the Grade filter described earlier, there are other filters that can be applied:

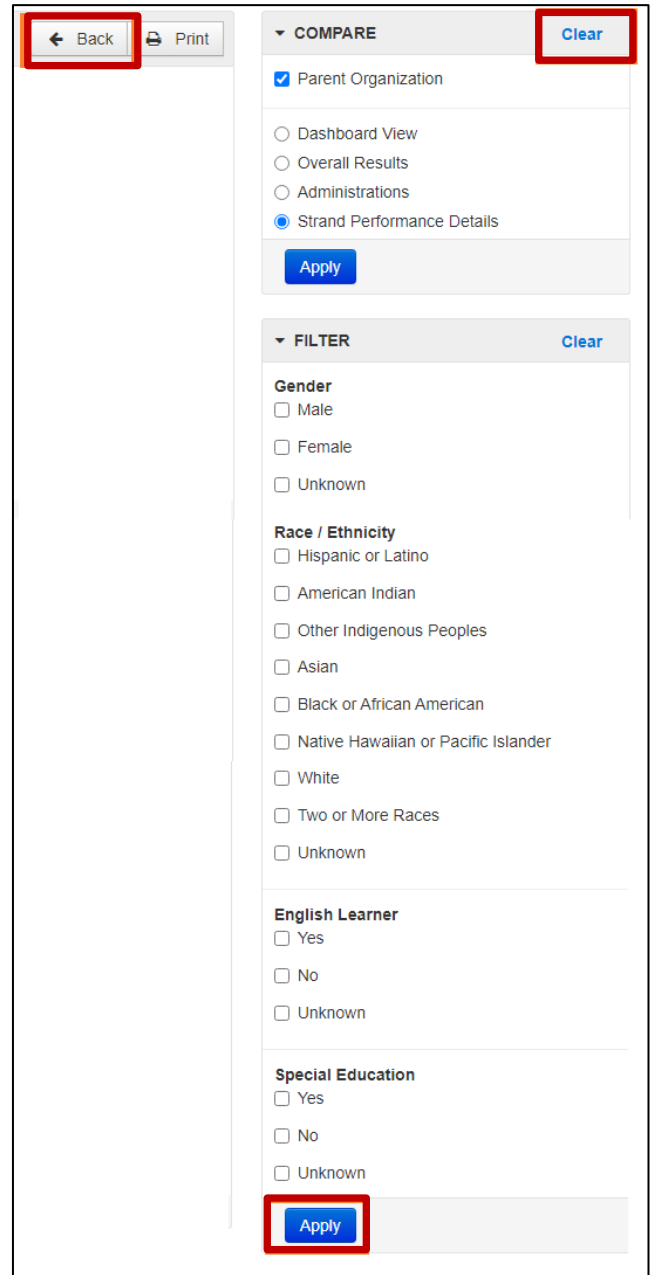

Gender, Race / Ethnicity, English Learner, and Special Education.

Filters can be used alone or in combination along with the COMPARE selections.

1. As needed, select the down arrow at the top of the FILTER box to open the filter options.
2. Select the checkbox(es) for the filter(s) desired, and then select **Apply**.
3. Results will appear based on the selected filter(s). To clear current FILTER selections, select **Clear** in the FILTER box, and start selection process again if different filtered results are desired. Select **Back** to review previously selected filtered views.

Beginning in 2023, these reports use state-defined race/ethnicity, including the state definition of American Indian students and the additional “Other Indigenous Peoples” group.

Note: Assessment data in PearsonAccess Next for 2014–2022 uses federal definitions. No race/ethnicity data is available prior to 2014.

Download and Print Reports

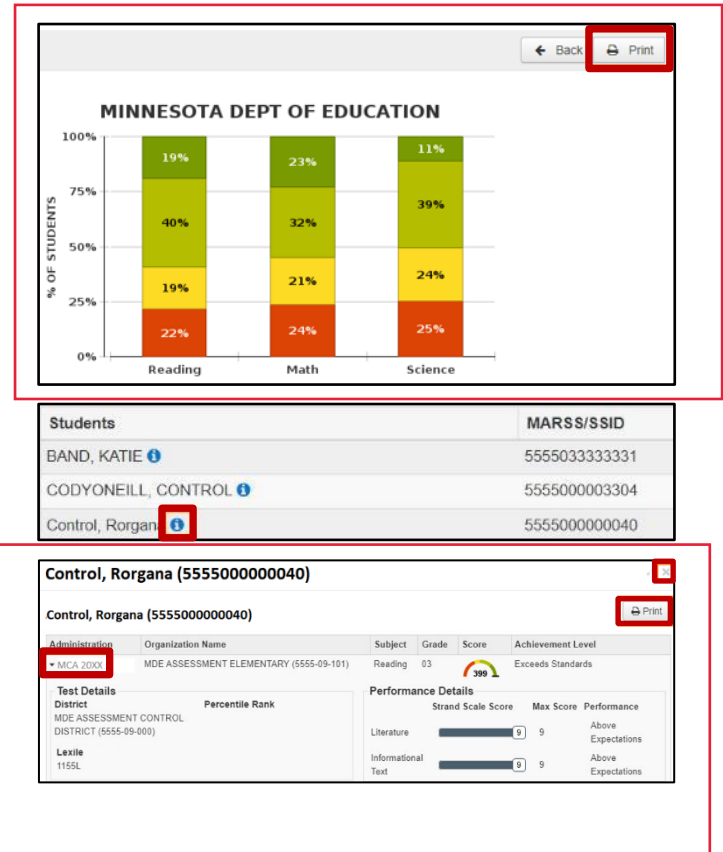

Results generated through selections can be downloaded and printed at any time on the main Longitudinal Reports screen or on the specific student results screen.

1. For a PDF report of selected results on the Longitudinal Reports screen, select **Print**.

Note: Longitudinal reports are currently available for only the following test administrations:

- MCA 2011–2019; 2021–2024
- MTAS 2011–2019; 2021–2024

2. For a PDF report of an individual student results, select the Information icon to the right of the student name.
3. Select **Print** to download the student's complete test history. Print using your browser's print function.

Longitudinal Export

The Longitudinal Export is available to download a spreadsheet of historical test results for all years available for all students currently active in the district.

1. From the Home page, under **Setup**, select **Import / Export Data**.
2. Select the dropdown menu right of the **Start** button and select **Import / Export Data**.
3. From the Type dropdown menu, select the appropriate **Longitudinal Export** (MCA or MTAS) and select **Process**.
4. After you select the Process button, you will be directed to the View File Details page where you can see file information updates. You will receive a Status Notification email when the file has completed processing.
5. When file is complete, select **Download File**. The file will download to your computer as a .csv file.

The screenshots illustrate the process of generating a Longitudinal Export:

- Screenshot 1:** The 'Setup' menu is open, and 'Import / Export Data' is selected.
- Screenshot 2:** The 'Import / Export Data' page is shown. The 'Start' button dropdown menu is open, and 'Import / Export Data' is selected.
- Screenshot 3:** The 'Tasks for Importing and Exporting' page is shown. The 'Type' dropdown menu is set to 'Longitudinal Export (MCA)', and the 'Process' button is highlighted.
- Screenshot 4:** The 'View File Details' page is shown. The file is 'Complete' and 'File is ready for download'. The 'Download File' button is highlighted.
