Student Readiness Tool

Visual Descriptions

Visual Descriptions Booklet

- The descriptions in this booklet provide additional support for students with vision impairments. The descriptions are read aloud to students by the Test Administrator.
- Use of this material is not required and should be used at the Test Administrator's discretion based on student needs.
- Some phenomena and questions in the Alt MCA SRT include images. Some of the images need alternate text, which describes the images.
- Not all images need a description.

Directions

1. Use this booklet to read descriptions of the images that appear in the Alt MCA SRT.
2. The Online Sequence column corresponds with the order of the phenomena and questions in the online Alt MCA SRT.
3. The Paper Sequence column corresponds with the order of the phenomena in the *Phenomena Book* and the order of questions in the *Presentation Pages*.

Online Sequence	Paper Sequence	Visual Descriptions
Phenomenon	S5_1-3 Phenomena Book	<p>Read while presenting the image: Water Cycle. The water cycle begins with rain falling from a dark cloud. The rain is labeled Precipitation. An arrow points from the rain to the ground and lake. Wavy lines above the lake move up to a white cloud. The wavy lines are labeled Evaporation. An arrow points from the lake to the white cloud.
