

Learning Management System (LMS) Test Administration Catalog Learning Paths, Courses, and Posting Dates

This table outlines the learning paths available within the LMS Test Administration catalog. Learning paths are tied to specific roles for test administration and are available once all required courses are posted to the Learning Path. Note: Learners only have access to learning paths and courses posted within the Test Administration catalog. Managers (for example, district and school staff with a DAC or AA user role in PearsonAccess Next) also have access to the courses within the DAC catalog.

New for 2024–25: Learning paths contain only required courses. Optional courses are posted as standalone courses within the Test Administration catalog.

Tip: Share the learning path link with Learners for quick access to the learning path courses. Please note that Learners must still have an LMS account to access the learning path.

This table outlines all required courses in each learning path, and when the learning path will be available in the LMS.

Learning Path (LP)	Required Courses	Date LP Available in the LMS
ACCESS Test Administrator – Grades 1–12	<ul style="list-style-type: none">Test Security Training (Assurance of Test Security Included)Active Monitoring for Statewide Assessments	Nov. 8, 2024 Learning Path Link
ACCESS Test Administrator – Kindergarten/WIDA Alternate ACCESS	<ul style="list-style-type: none">Test Security Training (Assurance of Test Security Included)	Nov. 8, 2024 Learning Path Link
Test Security	<ul style="list-style-type: none">Test Security Training (Assurance of Test Security Included)	Nov. 8, 2024 Learning Path Link
